

The National Home School Association (NHSA) is the national headquarters for homeschooling in America.

Members receive everything they need to start homeschooling along with on-going support through our many programs, opportunities, activities and services.

MEMBERS RECEIVE

WE BELIEVE

- Homeschooling is the best way to help children maintain their love of learning, their creativity, their ability to think critically and their freedom to become who they were meant to be.
- Every child should have the right to discover their passion and be free to pursue their own interests while learning what the NEED to know in their own way.
- Intelligence is not the ability to regurgitate facts and standardized tests destroy any opportunity for REAL long-term learning to take place.
- For real learning to take place children cannot be coerced, bribed or otherwise forced. They need to be genuinely interested in the subject matter and see a relevance to their lives.
- If you homeschool and share any of these beliefs then please join our Association so that together we can provide children with every opportunity to become intelligent, happy, free adults while helping to protect the right to homeschool for everyone.

COMPREHENSIVE E-BOOK

Members can download this comprehensive 285 page e-book entitled "Terra Scholar - A Complete Handbook for Today's Homeschooler." This e-book offers everything you need to know to make the decision to homeschool and see it through to graduation and beyond.

VIDEO HOMESCHOOL TEACHER COURSE

Members get unlimited access to the NHSA's exclusive "Homeschool Teacher Course" that includes 10 1/2 hours of the most informative video clips from a wide range of education experts. Overcome any fear of homeschooling while gaining the knowledge and tools needed to help your children learn.

P.O.D.S. FOR PARENTS THAT WORK FULL TIME

Work full time and still homeschool without need for daycare. The NHSA helps families to form P.O.D.S. (Parent Organized Discovery Sites). P.O.D.S. are small groups of like minded families that take turns hosting the children of the group one day a week. The children can socialize and still pursue their academic interests in a safe and comfortable learning environment.

SAFE AND EXCLUSIVE SOCIAL NETWORK

A social network that finally allows children to safely interact, learn, form study groups and socialize with like-minded homeschoolers of all ages who share common interests and aspirations. Fully COPPA (Children's Online Privacy Act) compliant.

MEMBERSHIP ID AND DISCOUNT CARD

The NHSA Membership card entitles members to dozens of "Student" and "Teacher" discounts at national chain stores and restaurants. The card also provides truant officers with the information they need to understand your child's homeschooling status.

MONTHLY NEWSLETTER

The "Home Learning Digest" provides news articles, tips and fresh ideas, listings of upcoming events, legal alerts and much more. The Digest is sent directly to each member's inbox each month in PDF format to be conveniently printed out or read online.

Check out our new "Kid's Corner" and "Learning Adventures" sections:

THE HOME LEARNING STORE

The "Vendor Products" section offers many products and services that homeschoolers might need. The "Member Products" section provides a showcase for products that NHSA Members produce that might be of interest to other members. Shopping at this store is a great way to show support for the homeschool community.

THE NHSA VIRTUAL EXPO

Beginning in 2018, the annual NHSA EXPO will be a national talent showcase for homeschoolers that sing, dance, play music, debate, have science fair projects, paint, draw, write, make films or solve problems. It will also bring together members of the State and National Student Councils and the Leadership Council for parents while offering a wide variety of informative presentations and access to all the best vendors.
